Questions:

1. What is your goal in taking this course?

To have a good understanding of the fundamentals of programming and to give me a step-by-step course to follow. There is plenty of courses online which do not follow a good path for understanding the necessary information needed to advance further.

2. When you achieve your goal above, what's something new in your life you will be able to do that you couldn't do before?

Something new will be learning a new language and have more confidence in my skill set to advance further in the IT industry and have a robust foundation in programming. This will make me versatile when learning new skills in programming.

3. If any of the days get difficult, what is your reminder as to why you are here in the first place? What can you say to yourself to keep moving forward?

What can help me move forward will be the great opportunities that I can achieve once I keep on enhancing my skills in programming. I know the potential of this industry and know that if I keep working hard, I can acquire a well-paying job. Also, the money I spent on this course is coming out of my pocket...

4. Having a dedicated place to do your studying is a key to your success. Describe where you plan to do your studying and what improvements you can make to ensure you can best maintain focus.

I study in my room since I have my own space and don't get bothered by others. This is the best possible place that can help me focus with minimal distractions. I have friends that can help me study and achieve my goals. They have been through similar classes and have the knowledge to help me study.

5. Are you able to put in up to 20 hours per week towards this program? List the times throughout the week you can work on the class. (Ex. Mon: 4-6PM, Wed: 8AM-1PM)

I can work after my job, which will be around 6PM-10PM. I work Monday through Friday at 8am-4pm and on some occasions a few hours more. Also I can work on Sat-Sun which I have the most time in.

6. On a scale of 1 to 10, how committed are you to graduating from this program (10 is most committed, 1 is least committed)? Explain why.

I am 8 to 10, that is because I need to understand if this bootcamp is worth it to me. I need to see if we are not wasting time and learning and getting the best possible tutor sessions. The more I feel this bootcamp having an impact of growth on me, the more I will be interested and committed to keep on going.

7. On a scale of 1 to 10, how committed are you to finding employment as a software developer (10 is most committed, 1 is least committed)? Explain why.

I am a 9 on finding employment as a software developer or any similar job fields like a game developer, etc. I am highly interested in programming and will stay with me for a long time. I love to mess with computers and learn new things
